

thank you letter

Dear Sir/Madam

I am a second year medical student in NUS. Thank you so much for your very generous donation of the SMA Students' Assistance Fund. I am truly grateful for all your kindness and assistance.

The SMA Medical Students' Assistance Fund will be of great help in enabling me to cover my living expenses for this academic year; such as food and transport, as well as in helping me save up towards paying back my study loan. Currently, I am giving tuition to three students each week, which can get quite tiring. Thanks to your kind donation, I plan to soon reduce the amount of time spent on tuition and focus more on my medical studies and extracurricular activities. The Fund also goes a long way towards relieving my parents' worries about the high cost of my education and gives them greater peace of mind.

Once again, my family and I would like to thank you for your selfless generosity.

*Yours sincerely,
A grateful medical student.*
