

SMA Assists Junior Doctor

A member contacted the SMA regarding certain administrative issues faced by young doctors at the workplace. We are pleased to share that the SMA Council & Young Doctors' Committee rendered assistance and managed to facilitate a mutually acceptable outcome. We hope that we can continue to provide assistance to our membership where possible. **SMA**

Ostler's Notes

"In ordinary training you run the course over, but life's race is run but once; and though the course may seem long to you, it is really very short, but hard to learn. Fortunately, you are not alone on the track, as your brothers are ahead, and if you are willing there is always help at hand."
