

# Honouring Excellence

In 2003, The Courage Fund gave out more than 5,500 Courage Awards to healthcare workers to recognise their extraordinary courage and selfless dedication in the fight against the deadly severe acute respiratory syndrome virus that had threatened the entire nation earlier that year.

Since 2004, The Courage Fund has been giving out the Healthcare Humanity Awards annually to outstanding healthcare workers, who are inspirational role models who go the extra mile to offer care and comfort to the sick and the infirm. The Awards aim to underscore that healthcare is a noble profession, and not merely a job. The Awards will also raise public recognition and respect for the healthcare profession.

The 53rd SMA Council warmly congratulates our members who have been awarded the Healthcare Humanity Awards 2012. **SMA**
